

# KIDUS MINTESNOT

Addis Ababa, Ethiopia | kidusmintesnot955@gmail.com

## PROFESSIONAL SUMMARY

To grow as a full stack developer and contribute to real products through impactful engineering, collaboration, and continuous improvement.

## TECHNICAL EXPERTISE

HTML5

CSS3

JavaScript

Node.js

Java

Flutter

Android Studio

Dart

TypeScript

Next.js

MapLibre (3D)

Firebase

Git / GitHub

## EDUCATION

### Unity University

BSc in Computer Science (In Progress)

Focused on software engineering fundamentals, database systems, and modern web development practices.

## KEY PROJECTS

### Eyosar Logistics Platform

A comprehensive logistics and freight management platform featuring shipment tracking, service management, and client-focused interfaces.

### Gursha Guide

An Ethiopian cuisine and recipe platform with recipe browsing, cultural content, and administrative workflows.

### Quncho (3D GPS Visualizer)

High-performance geospatial visualizer transforming GPX tracks into immersive 3D experiences with real-time training insights.

### GuzoMate

Social walking and dating app connecting people through shared journeys, location matching, and safety-first interaction concepts.

## RELEVANT EXPERIENCE

### Independent Developer Projects

Designed and built portfolio, product, and concept applications including logistics, geospatial, social, and content-based platforms. Worked across frontend UI, mobile workflows, APIs, and database integration concepts.

## CORE STRENGTHS

Problem solving, fast learning, consistent execution, and clean code organization for maintainable projects.
